EAA Chapter 9 visits

EAA Chapter 9 will visit AirNet on Thursday, October 18th at a special start time, 7:30pm. The place is Rickenbacker Airport (LCK).

Travel I-270 to the Alum Creek exit south. Follow Alum Creek south to Port Rd. Take a right on Port Rd. and then take a left on Star Check Dr. (Baymont Hotel is on the corner). Follow Star Check Dr. into the AirNet parking lot and go

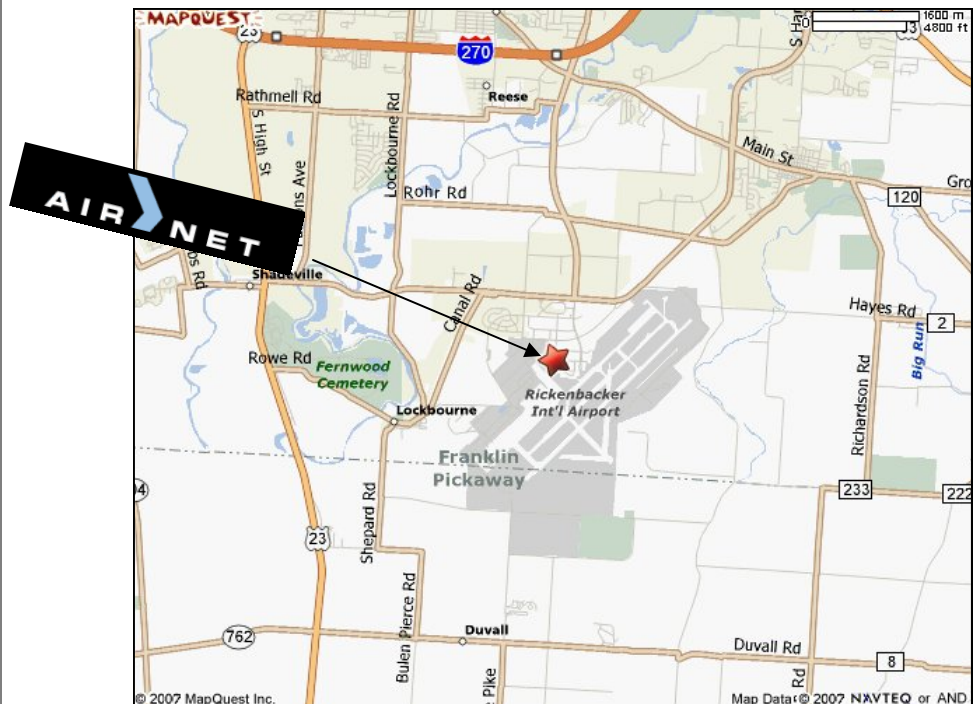

to the main door at the east side of the parking lot.

Our host will be John Rosekelly who is the Airline Operations Supervisor at AirNet. AirNet is a specialty package delivery service that grew out of the canceled check processing business. They fly piston twins such as Barons or Navajos and feature Learjets for the longer hauls.

Oct 18th

The real excitement takes place at the time when most of the planes arrive and swap cargo. That time is between 21:00 and 22:00. Though late at night, you are welcome to stay and see that organized mayhem.

If you get lost or need special directions, contact our host at 877-293-8463. We look forward to seeing you at Rickenbacker!

About AirNet

AirNet Systems, Inc., through its operating subsidiaries, focuses its resources on providing value-added, time-critical aviation services to a diverse set of customers in the most service-intensive, cost-effective manner possible. AirNet operates an integrated national transportation network that provides expedited transportation services to banks and time-critical small package shippers nationwide. Jetride, Inc., a wholly-owned subsidiary, provides Passenger Charter services nationwide to individuals and businesses. The Company operated a total of 130 aircraft, 114 for its cargo airline and 16 for its passenger charter airline at March 31, 2005, located strategically throughout the United States. To find out more, visit AirNet's website at www.airnet.com.
